

Know the secret to special occasions?

Clean.

Sparkling glasses, shining silverware, freshly laundered clothes, the secret to that special occasion is clean—*really* clean.

Call the systems experts at Invensys Appliance Controls. With more than 100 years of technology expertise and service excellence, we know the clean your customers *really* want.

- Accurate control of water/detergent dispensing systems with a new generation of cost-effective timers that optimize cleaning power
- Automatic sensing of clothes moisture for efficient dryer performance
- Reliable temperature sensing and timing to allow household chores to be completed with increased efficiency

And there's more, Invensys can also lend expertise to help your customers:

- Set a table with confidence that dinnerware will sparkle and shine thanks to precision dishwasher controls
- Wear clothes that are fresh and clean every time they're washed with intelligent wash systems
- Dry a load of clothes knowing your favorite sweater will be protected with moisture sensors

Special occasions start with expert cleaning. Let Invensys add sparkle to your offering.
